BioAgros

PRODUCT CATALOGUE

JULY 2020

Who **we are**

- Bioagros SA was founded in 1990 by the agronomist - organic farmer Kostas Papadopoulos.
- We offer **30 years** high nutritional value products.
- We have significant know-how in the field of organic nutrition and we are constantly evolving through research and development of new products.
- We have the largest distribution network in Greece with **20** maintenance and cooling trucks for product distribution.
- We have the biggest sales team with **18** sales managers and merchandisers.
- We sell our products in every corner of the country with over **2,000** sell points.
- We cooperate with all the organic shops and supermarkets in Greece, as well as with **150** wholesalers.
- We own **4,000** sqm facilities in Kria Vrisi, Pella, Greece.
  - **4,000** sqm facilities in the center of Athens.
  - **3,000** tons of cold storage rooms at controlled atmosphere for fresh fruits, vegetables and dairy.
- We cooperate with **300 + producers** all over Greece.
- We own **1000** acres with direct management.
- We have **200 selected suppliers** of organic products from all around the world.
- We cooperate with **100 greenhouses.**
- We have **2,000** different products.
- We have **200 product series** the categories dry, refrigerated, frozen, non-food.
- We have **2 production units** (goat's milk yogurt, nut spreads) and **3 packaging units** (gluten free, dry load and fresh fruit & vegetables).
- Our team consists of **150** executives and employees.
- We export to **3 Continents** and over 20 countries such as Bulgaria, Albania, Belgium, France, Germany, Italy, Romania, Kuwait, United Arab Emirates, Switzerland, USA, Cyprus, The Netherlands, Poland, Romania, Sweden, Serbia, England.

We try to ensure our **planet's sustainability**

Our ongoing effort to protect the environment significantly determines our way of working. Our goal is to act responsibly and respectfully for people and the environment, by adapting our business to the requirements and opportunities of a reduced waste volume economy and reduced CO_2 emissions.

Our initiatives

1. We reduce our carbon footprint by using photovoltaic systems, replacing electricity with solar energy by 90% each year.
2. Efficient use of our fleet.
3. We increased our recyclable materials and packaging.
4. We recycle more than 100 tons of packaging materials per year.
